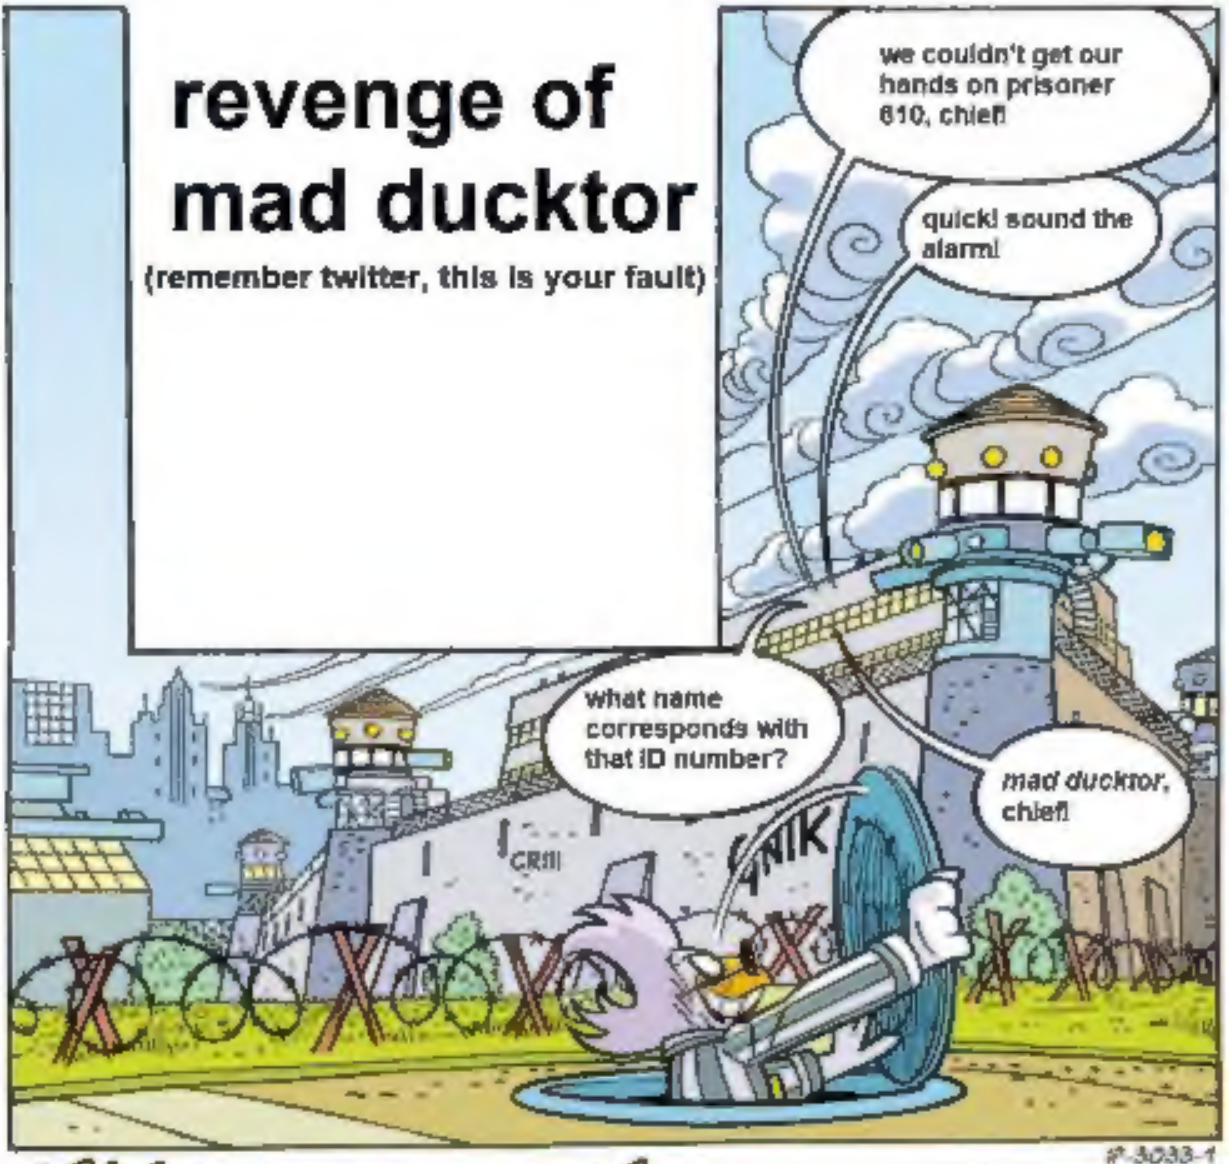
revenge of mad ducktor

(remember twitter, this is your fault)



we couldn't get our hands on prisoner 610, chief!
quick! sound the alarm!
what name corresponds with that ID number?
mad ducktor, chief!

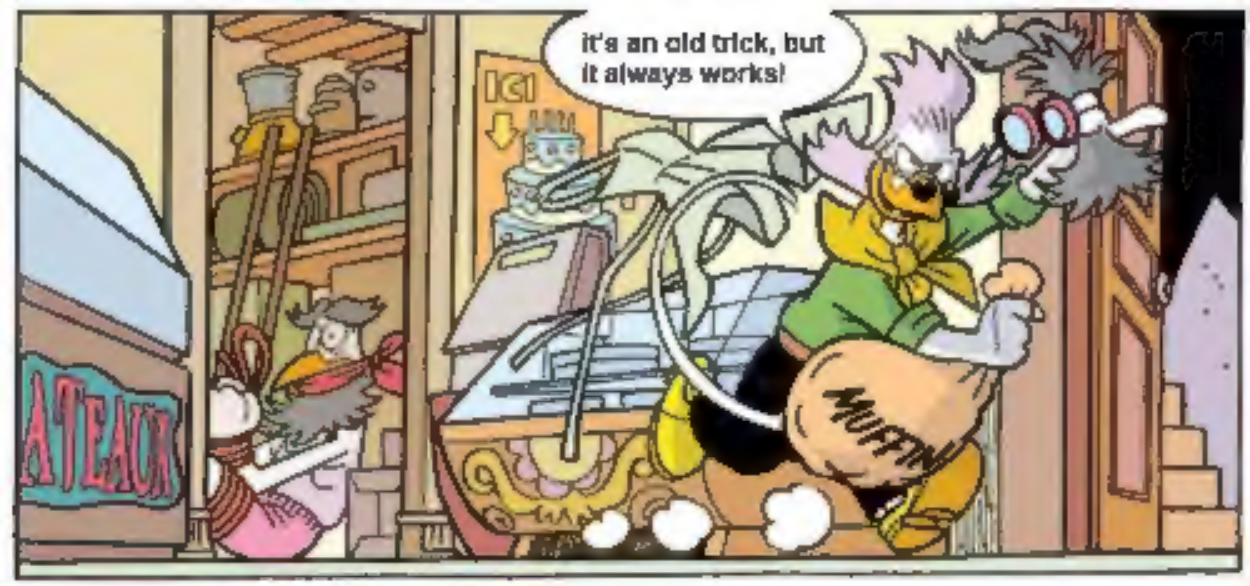
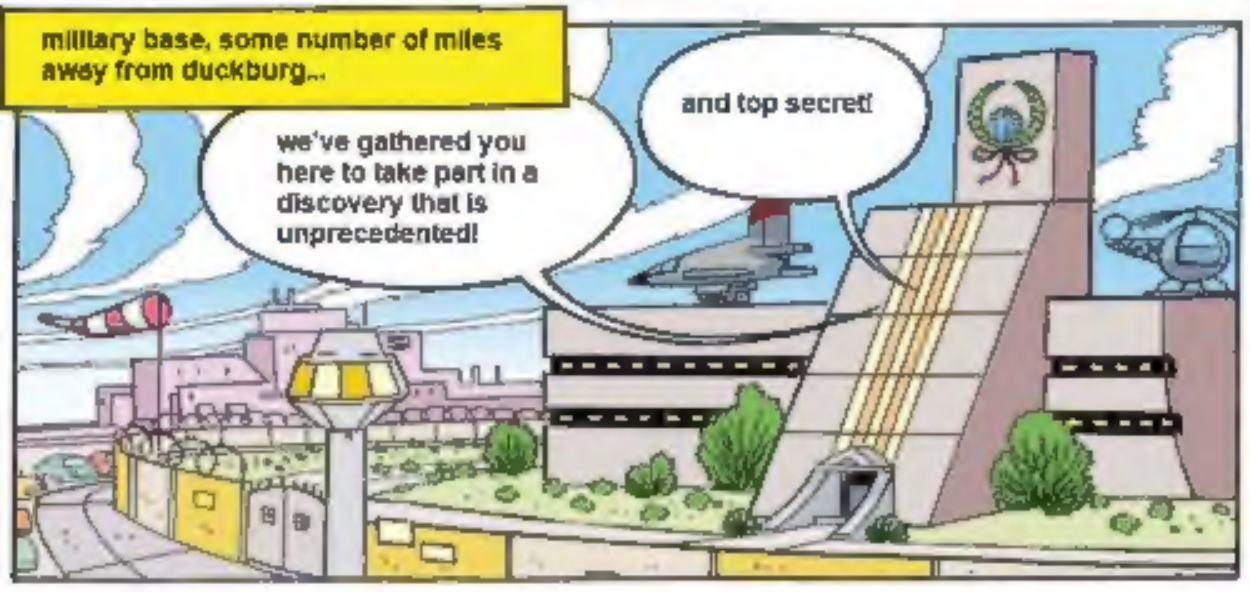
"gulp" a hold-up!
mad ducktor!
hurry up! if you don't want want any trouble, that is
in times like these, the fearful bumbum is replaced by the heroic...
...masked painter!
what are you waiting for? go after him!
PM
at least tell me which direction he ran off
he ran out the back door!
thank you! I'll go after him, I'll capture him, and I'll tie him up like a roast!
hehe!
PM



it's an old trick, but it always works!
ICI
ATEACK
MUFFIN



military base, some number of miles away from duckburg...
we've gathered you here to take part in a discovery that is unprecedented!
and top secret!

three weeks ago, a small asteroid landed not far from here.

upon first glance, nothing particularly stood out, but in fact,

judge for yourself!
this meteorite produces an energy that seems inexhaustible!
FLAP
OH!
marvelous!
but how do you exploit a resource that important?
there could be a wide range of uses!
but before that, we need to study this mineral in specialized laboratories
!!!
so we've gathered the highest ranking military officials to transport it in total security!
im all ears
we can't run the risk of letting such a concentrated form of energy fall into the wrong hands!
that depends on your point of view! hehe!

perfect! i have all the information i need!
mad ducktor will soon return to the scene!
elsewhere...
hehe, good work, other ridiculously campy oneshot villains!
this time, we did perfectly!
the bar of plutonium we hijacked will reinforce our arsenal!
and we'll be invincible!
i always said we needed to go big
but the bigger they are, the harder they fall!

paperinik!
why do you crooks always oblige me to work overtime?
gulp!
BOMP
you don't scare us!
then come at me, bros
there's three of us and we're plenty lethal!
KRK BOOOM
I hope you like my paralyzing ray!
ARGH!
GRR!
WAMP
as for you...
I'll prey on you using my praying mantis kick! haha! just a little something I picked up from my self defense class!

ouch! and what move was that?
GONK
ZIP
SBRING
i don't know. I was improvising!
without a little imagination, even a job like mine runs the risk of becoming repetitive! hehe!
grr, your gonna pay for that!
GRR !
WAP
i must confess, you guys are tough!
sometimes, you have to understand when the time has come to stop!
ZIP

POCK
BOMP

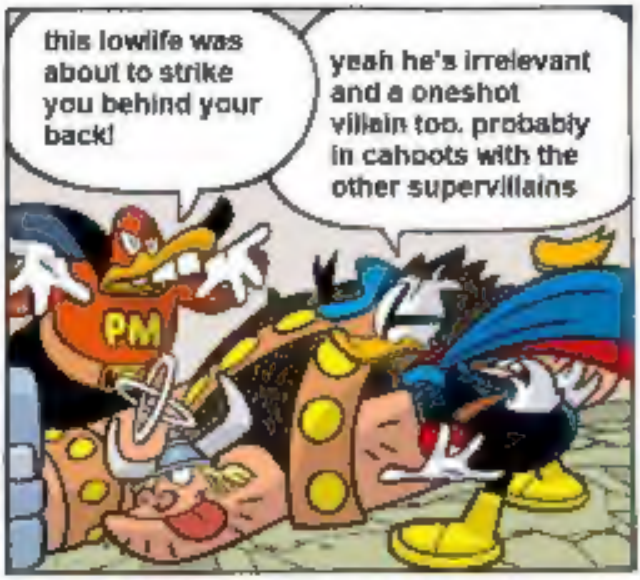
BANG
phew! that was harder than i thought! but i still came out on top!
dont cry out in victory too soon, you masked moron! you won't stand a chance against my *mallet punch*
uwaaa? who turned out the lights?
FLOP
PONK
someone who thinks it's time for you to go to bed!



this lowlife was about to strike you behind your back!
yeah he's irrelevant and a oneshot villain too. probably in cahoots with the other supervillains
PM

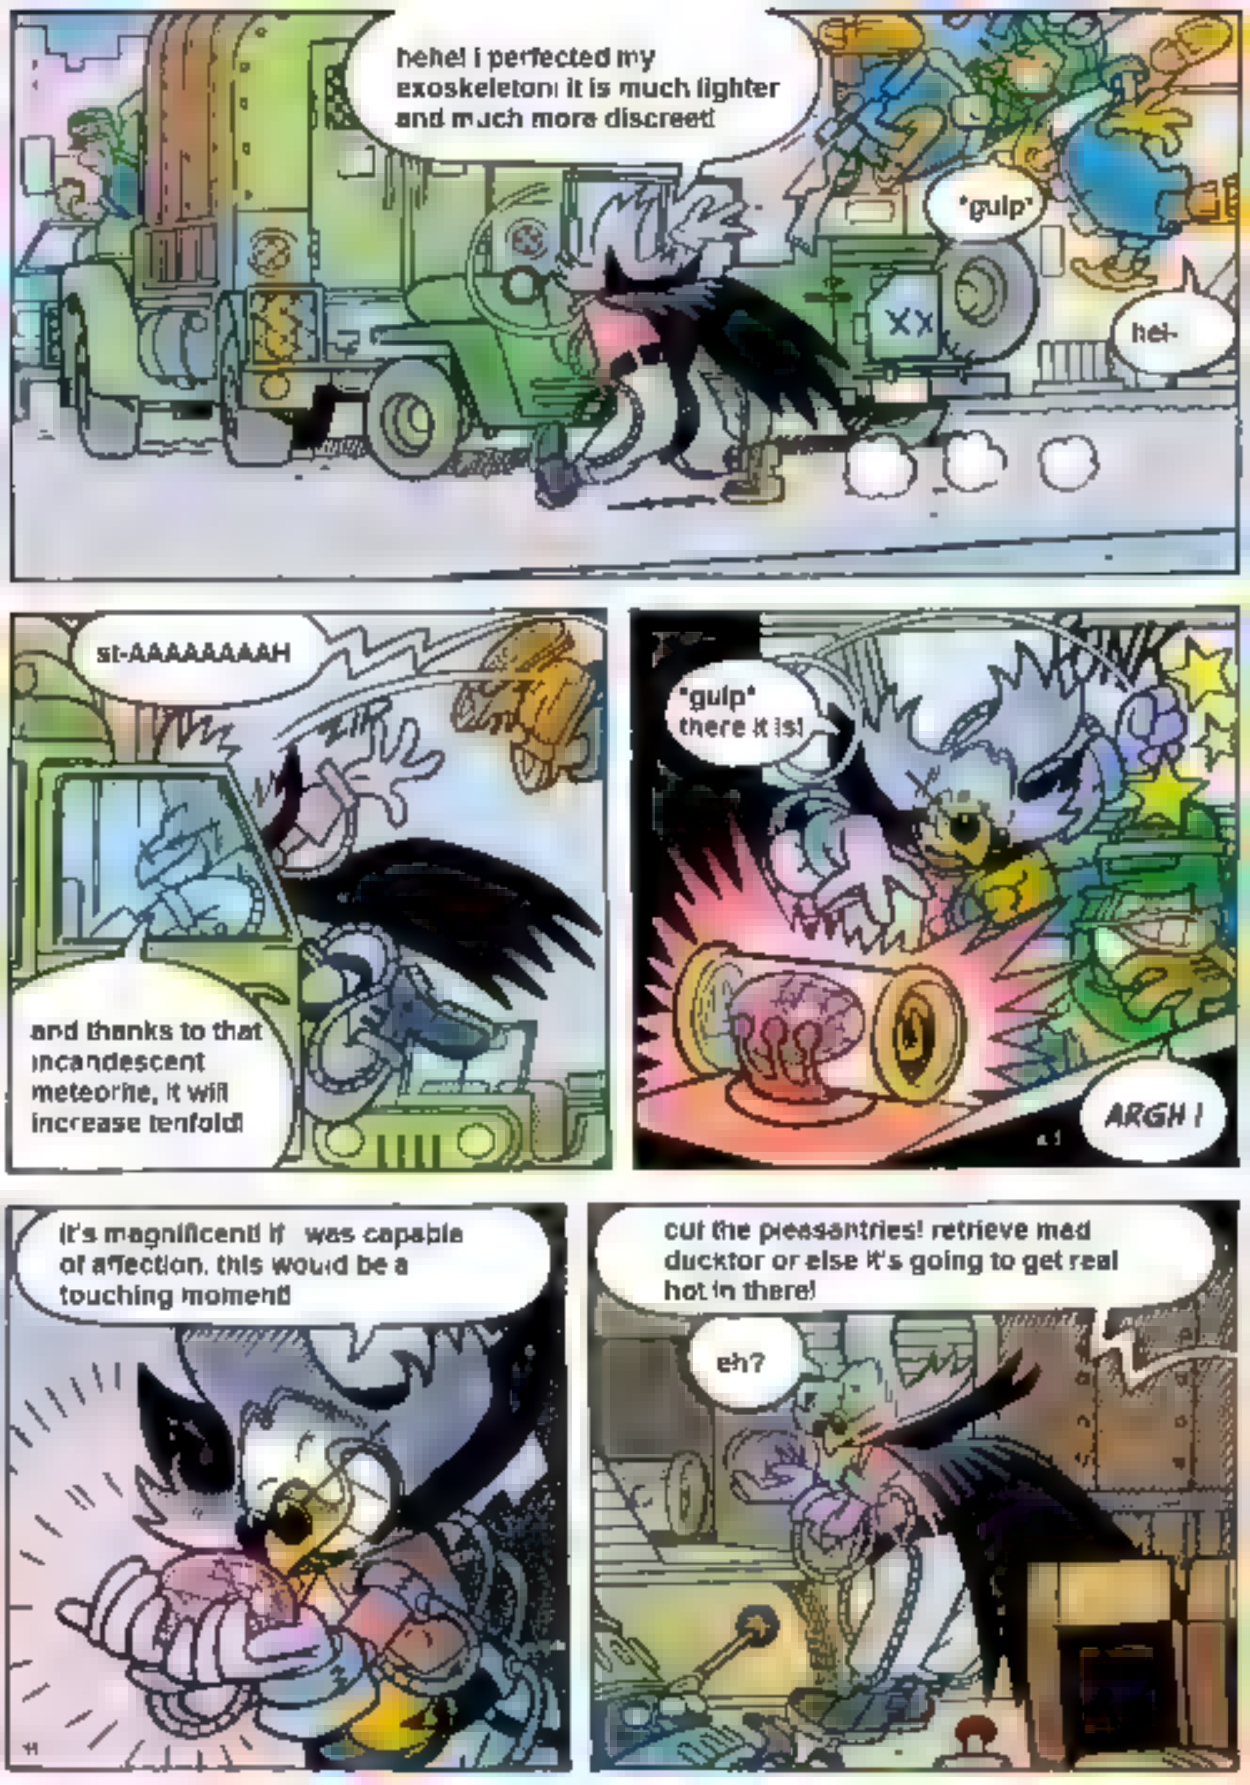
thanks masked painter! I owe you one!
wipe that smile off your face, paperinik. i came to tell you some bad news...

mad ducktor escaped from prison.

the operation is going according to plan!
US A

these strict security measures will help us avoid any and all surprises
we loaded the meteorite, colonel!
very good. you can go. and most importantly, keep your eyes wide open!

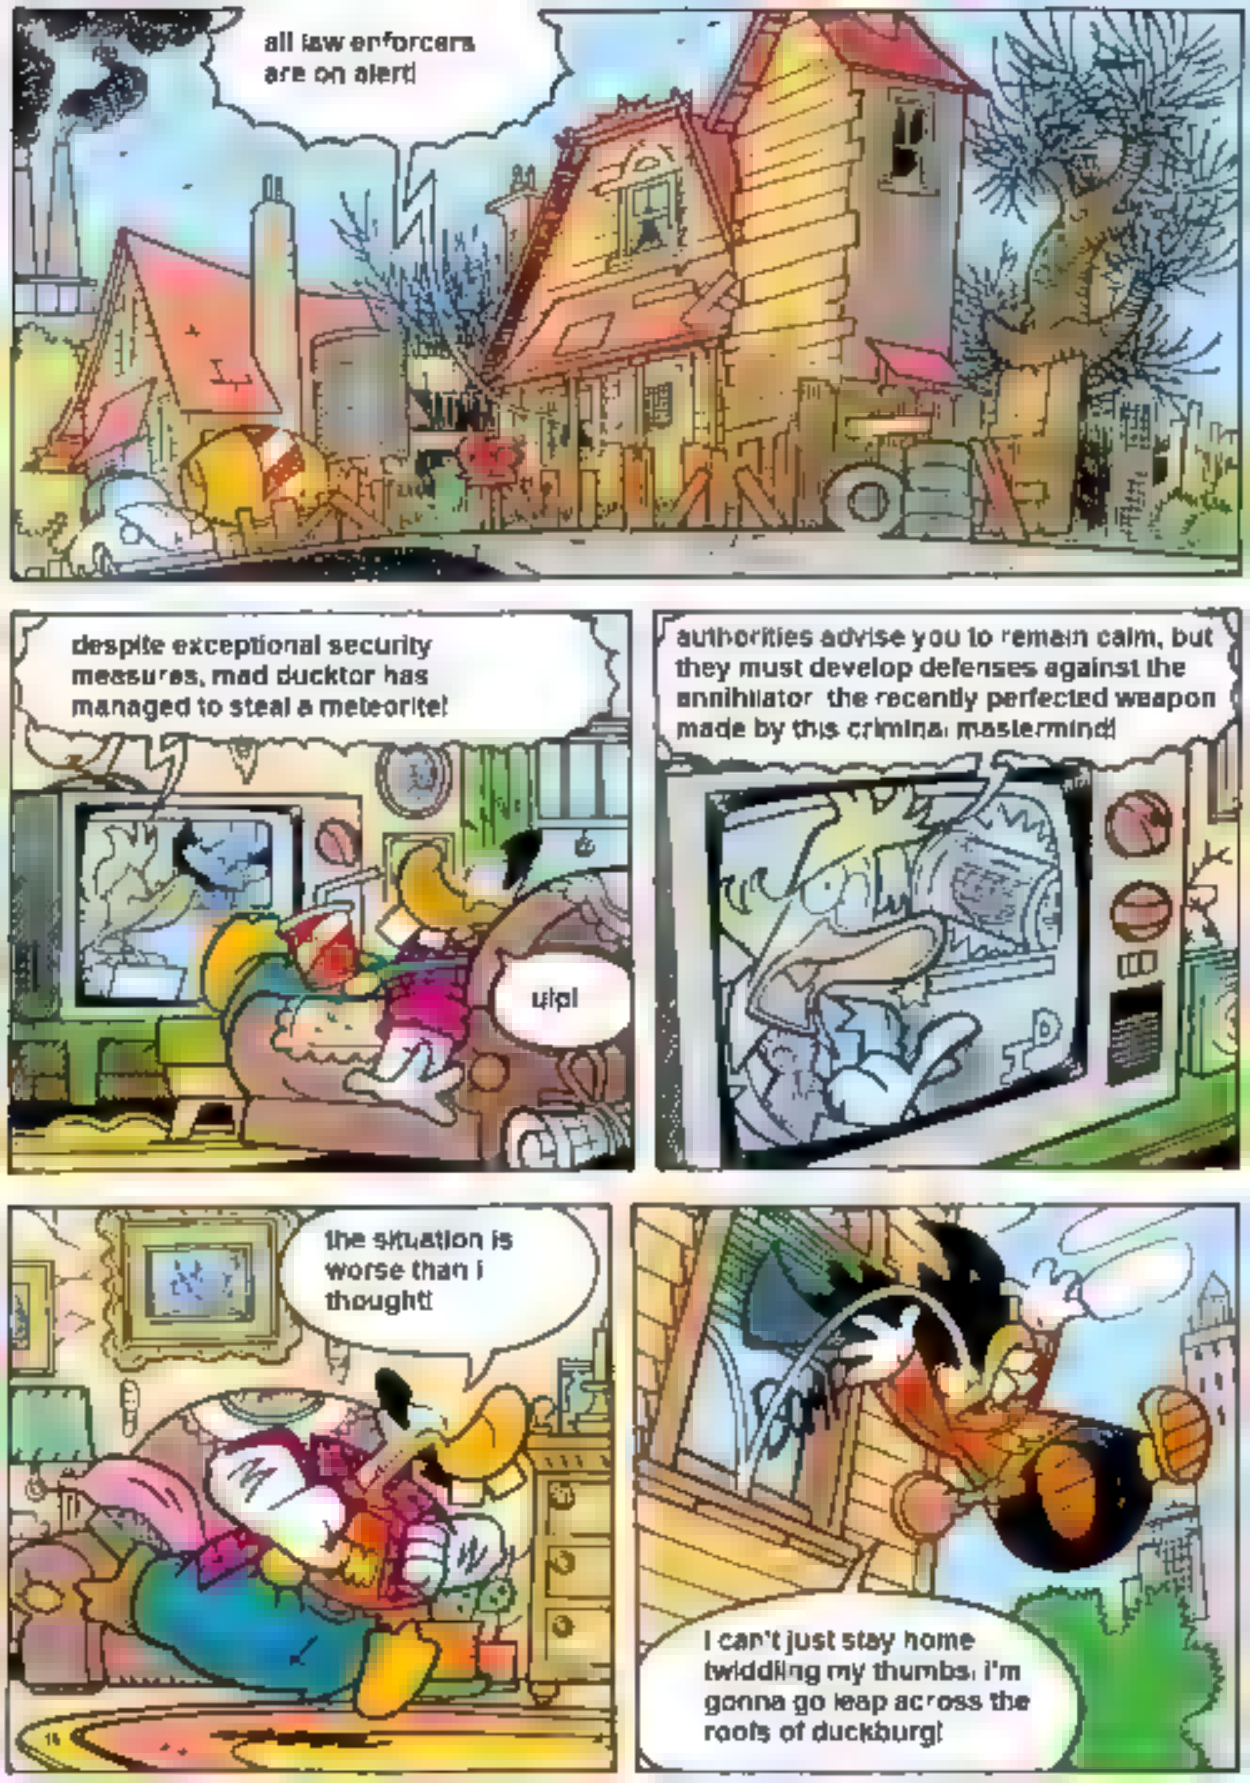
so far, everything's gone well
hold on! the armored van's radar says there's an obstacle in the way, but the road is clear!
advance with prudence, men. better to see it more clearly!
hmm.. everything seems normal...
what's happening? why is the tank slowing down?
CLANG
XX
follow my orders if you want to arrive, hehe!
!!?
gulp mad ducktor! he was waiting for us in that manhole!
BRRRMMM
it's an ambush! sound the alarm!
you'll really need more than that to stop me.



hehe! i perfected my exoskeleton! it is much lighter and much more discreet!
gulp
XX
hei-
st-AAAAAAAAH
and thanks to that incandescent meteorite, it will increase tenfold!
gulp there it is!
ARGH !
it's magnificent! if was capable of affection, this would be a touching moment!
cut the pleasantries! retrieve mad ducktor or else it's going to get real hot in there!
eh?

I don't think your exoskeleton can protect you from our whole dang military
you really think you can terrify me with your scrap metal collection?
give us the incandescent meteorite, if you know what's best for you!
hahal that authoritarian tone does not suit you! try begging instead!
well, your choice. fire when ready
CLIC CLIC
CLIC
hold on a second! let's be reasonable!
you see, the meteorite has inadvertently become stuck in my belt and has started to supply power to a very nice apparatus
?
it's called *the annihilator*! its ray blocks any mechanic or electronic gizmo! locks, motors, computers, arms, you name it! it's deactivated!

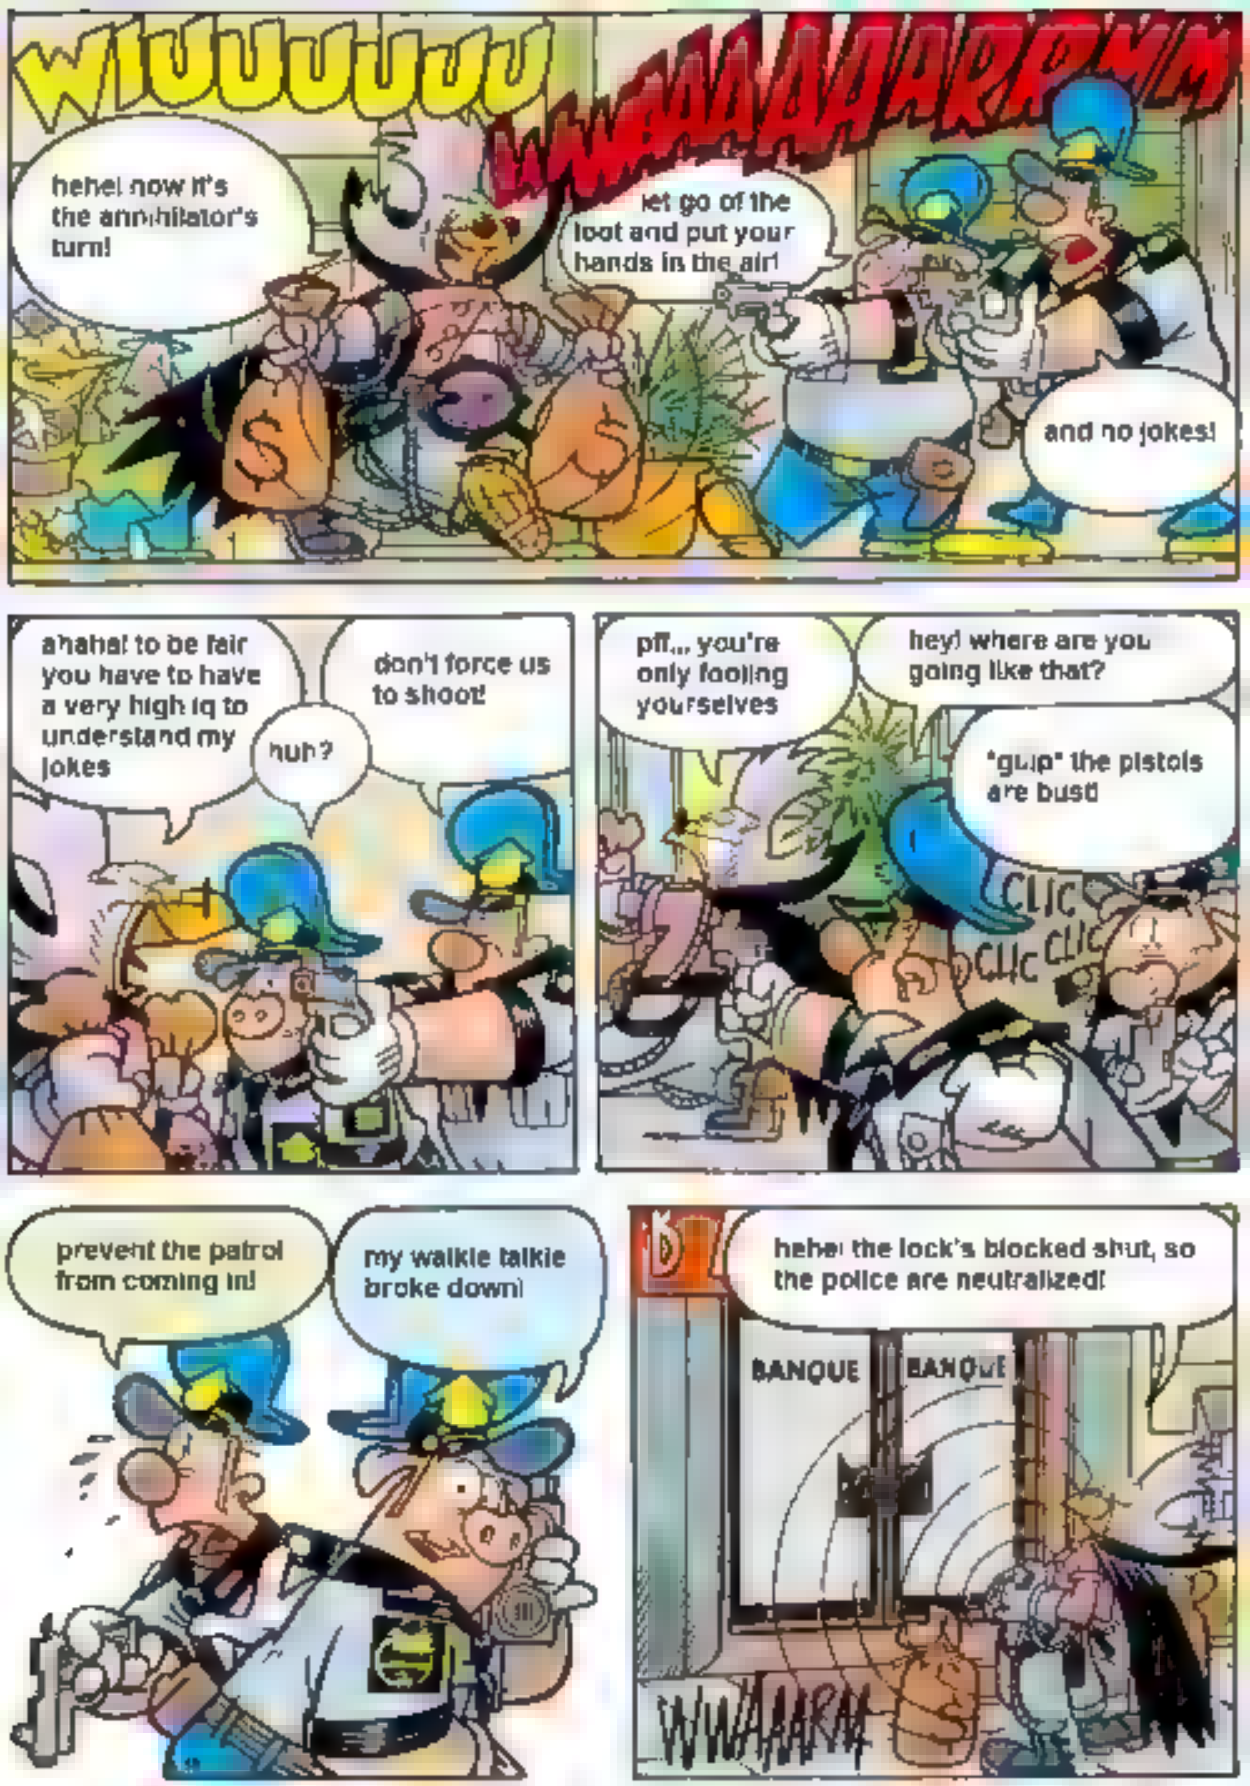
until now, i wasn't able to find a source powerful enough to get it up and running...
CLIC
but thanks to the meteorite, that problem is resolved!
WWAARRNNIINNGG
what?
now. if you don't have any objections, i must be going. i've spent enough time here.
WHAA
STOP HIM!
our arms aren't working, colonel!
communication's cut too!
in that case, purse him in the car!
the motor doesn't want to turn on!
everything's disjointed! what a disaster!



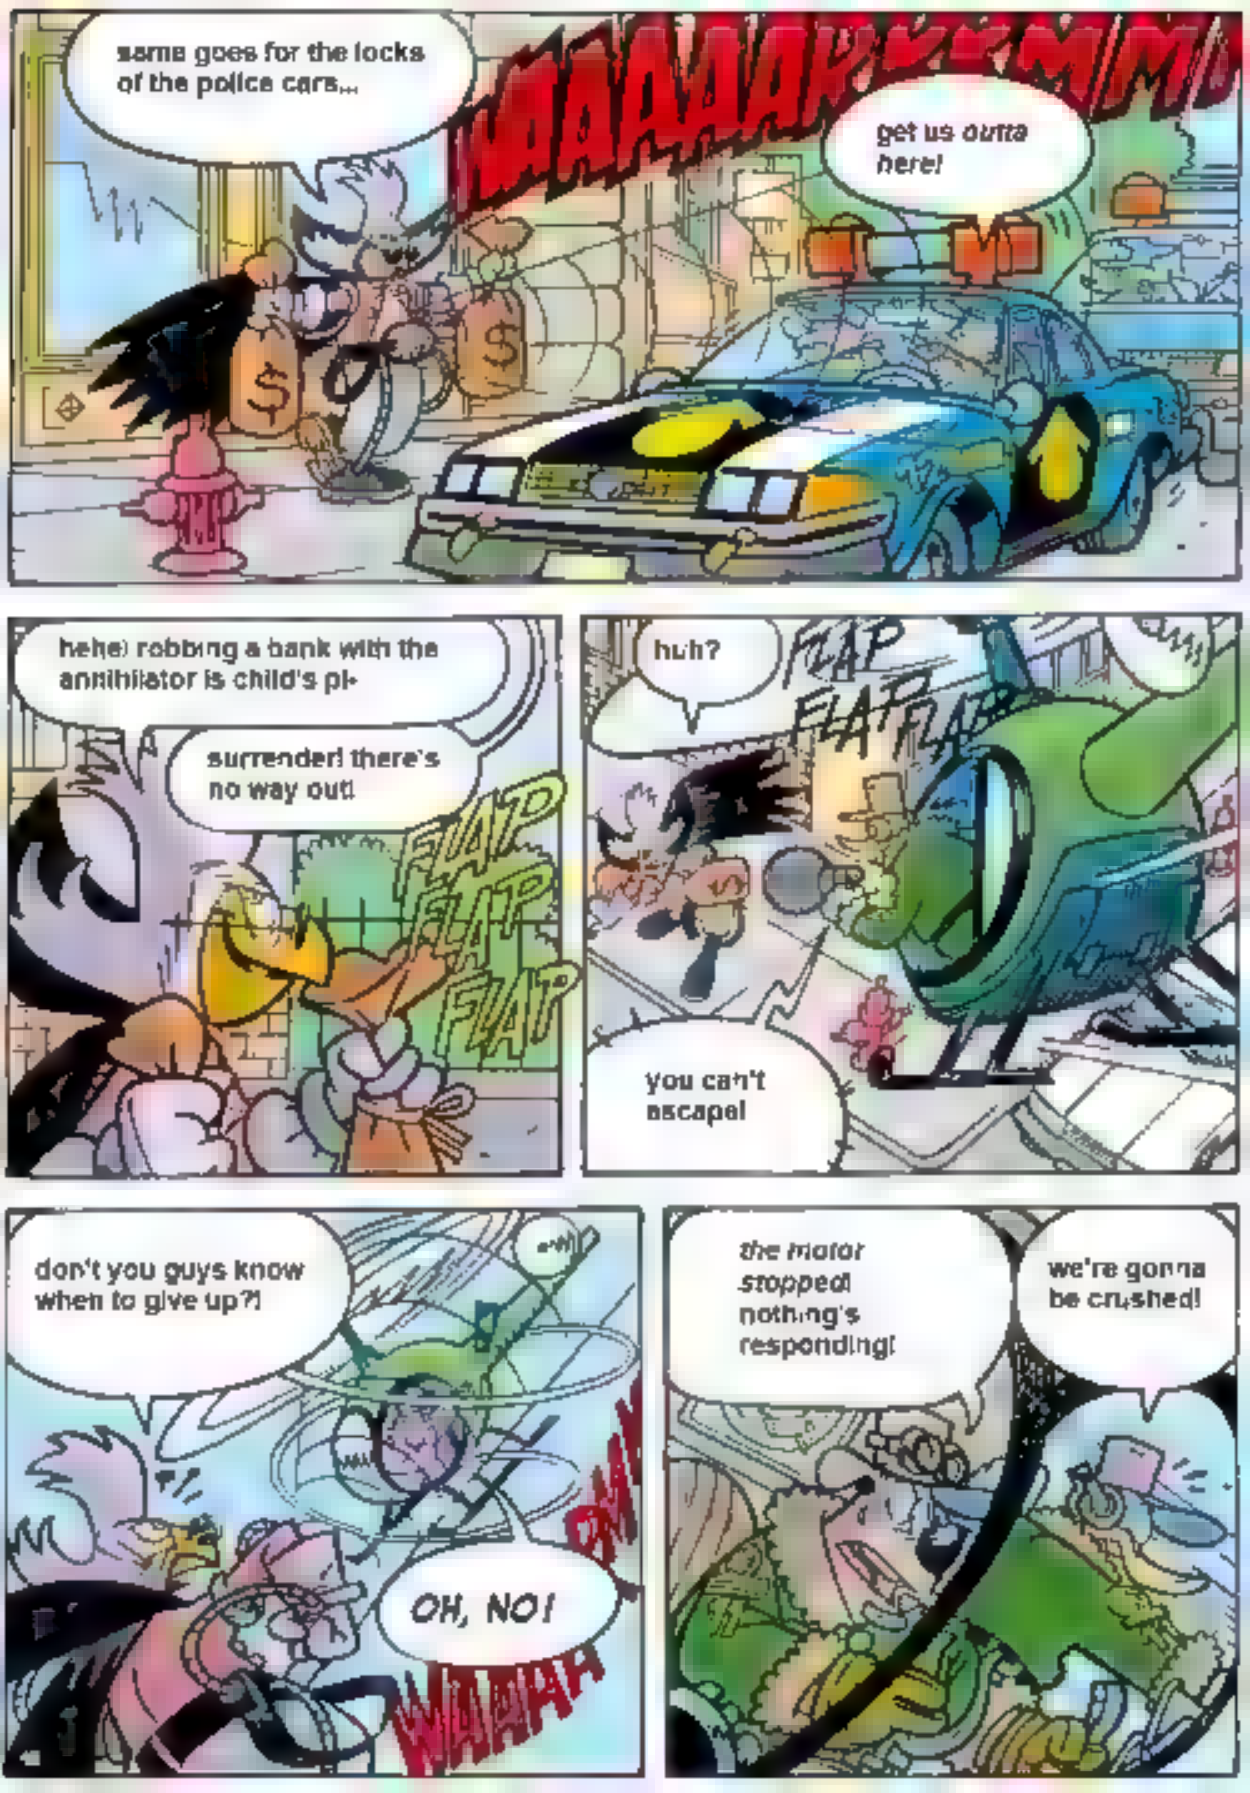
all law enforcers are on alert!
despite exceptional security measures, mad ducktor has managed to steal a meteorite!
uipi
authorities advise you to remain calm, but they must develop defenses against the annihilator the recently perfected weapon made by this criminal mastermind!
the situation is worse than i thought!
I can't just stay home twiddling my thumbs. I'm gonna go leap across the roofs of duckburg!

"the ultrapowerful machine is a threat to us all" *gulp*
I have to take action without haste!
that second rate genius runs a high risk of making a mess, but someone qualified can overpower him!
hope you weren't counting on hogging all the fun for yourself!
masked painter! are you looking for mad ducktor as well?
hehe! of course! I'm the first line of defense when it comes to weirdos with whackjob plans

what?!
buddy i know you heard what I said. i want all the money and jewels from your safes.
b-but, are you sure? between the police force, surveillance tapes, and watchmen, you won't be able to get away with this!
that's my own problem!
ehh, then, if you allow it, at this stage i would sound the alarm?
please do!
WUUUUUU
what's happening
WUUUUUU
quick! it's a hold up!
gulp
WUUU
well that siren is starting to bug me.
CLI



WIUUUUUU
WAAAAAARRRM
hehe! now it's the annihilator's turn!
let go of the loot and put your hands in the air!
and no jokes!
ahaha! to be fair you have to have a very high iq to understand my jokes
huh?
don't force us to shoot!
pff... you're only fooling yourselves
hey! where are you going like that?
"gulp" the pistols are bust!
CLIC
CLIC
CLIC
prevent the patrol from coming in!
my walkie talkie broke down!
hehe! the lock's blocked shut, so the police are neutralized!
BANQUE
BANQUE
WWAAARM



same goes for the locks of the police cars...
WAAA

don't panic! the shock absorbing ray and the antigravity shield will assure you land safely!
BZZZZ
WOW
thanks, paperinik! you saved us!
hey! what about me! i was the one who put this plan together!
ehehe!
so we meet again, mad ducktor!
imbecile! you saved me the pain of having to come search for you.
and again. someone's decided to *ignore* me!
BOCK
your left hook's not bad!
stick around to try my direct punch!

that's enough! you're abusing my patience!
BOCK
ARGH!
CRASH
OUMPF!
BOCK
for now, let's get down to business, mad ducktor!
ouch!
you've threatened the security of the city and i cannot allow that!
thanks to my paralyzing ray i can finally put an end to this farce!
ooh! i'm so scared!
CLIC
hey! why isn't the trigger on the ray working?
my antigravity shield is jammed too!
CLIC
CLIC
CLIC

you've beaten me too often, you masked clown
hey! i'm here to-
SOCK
THUD
that can't be repeated again!
SBKANGH
NEVER AGAIN!
owl ouch!
he tossed us to the sidelines like we were noth ng at all!
take a look at the crater he made!
that was only a demonstration of his power he wanted to mock us!
luckily the game's not over yet!

now that I've made the most of the explosive power of the annihilator, I can devote myself to my original project!
a plan that's been put off far far too long!
I'll send that old duck to the poorhouse and then tear the mask off paperinik!"
scwooge
papewinik
only when I attain my objective will I be satisfied!
FRRTE
FRRTE
and only at that moment will I finally feel joy! hehehe!

meanwhile..
you gotta help us!
you have to find a way to stop that troublemaker!
GYRO GEARLOOSE INVENTIONS
gladly, but... how??
invent a machine that can cancel out the power of the annihilator and the exoskeleton!
it's that simple, no?
IMPOSSIBLE!
nothing's impossible for the inventing-est inventor in all of duckburg!
hahe!
regardless of whatever machine I think up, it'd be unusable.
but if you invent something more powerful...
...the annihilator would inevitably block its mechanisms!
gulp
arght that's true!

so... this is the end?
are we at the end of our rope?
all we can do is wait and hope mad ducktor commits a faux-pas!
gulp this is terrible!
tremble, old penny-pincher! for the bell tolls for thee!
HALT !
OUT!
STOP!
thanks to the annihilator, infiltrating the money is but a simple formality
WAAARRM
WAAARRM
hahe! no power source can resist the evil ray's shockwave

I'm in! won't rest until *pulverise* that mountain of money and my revenge will finally be fulfilled!
you'll have to postpone your celebration you insane interloper!
oh! here comes the prehistoric scrooge mcduck and his even more dated firearm!
it's useless to try and threaten me with that rusty musket. I've already had my tetanus shot! hahaha!
I'm warning you! I'm serious!
you can keep playing with your gun all you want, but you'll quickly realize it won't work.
"gulp" it's true!
WWAH
BRRMMM
CLIC CLIC
BONG BONG BONG
grr... busted or not, I still know how to use it!
ouch!

you were always so bothersome!
CRASH
ARGH!
BOCK
but this time, i won't leave my work unfinished!
gulp
whatever the cost, i'll get revenge for the injustices suffered by gyro gearloose, my spineless alter ego!
LET ME OUT RIGHT NOW!
continue to cry out, you old cheapskate! no one can save your stupid money!
well someone sure is pessimistic!
you said it!
you two again?
hey! he's made progress! this time he noticed me!
well let's get to it and make sure he remembers you in the future! hehe!

he seemed surprised, like he didn't know what to do!
that means it's the right moment to attack!
your ridiculous powers are nowhere near the height of mad duck!-OOF!
save your breath, smooth talker!
POCK
PDING
ARGH !
CRASH
you'll need it to confess to your crimes!
CRASH
get up! this is only the beginning!
wretched fools! you don't know what mess you've gotten yourselves into!
I told you he wouldn't like that!
let's go! stop acting so tough and fight!
mmm... when the going gets tough...

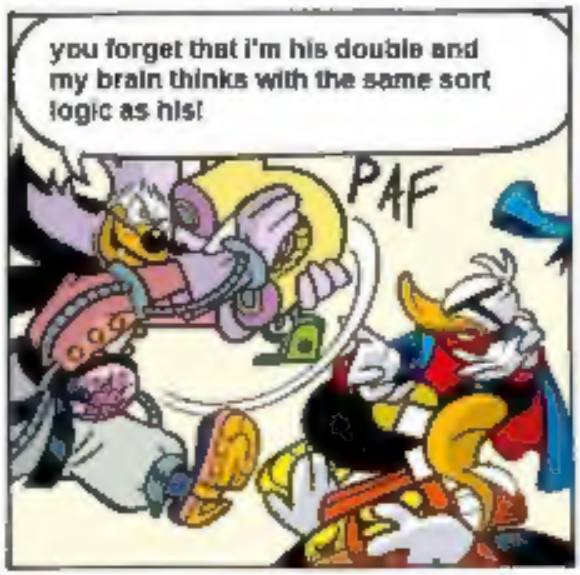
SBRING
"gulp"
the tough ger going!
ow!
"gulp" that crazed genius is really getting down to business!
he may be dangerous at any rate, but that doesn't mean we can give up!
ATTACK!
come here, you buffoons!
CRAK
you're gonna savor the bitter taste of defeat...
barely missed it!
"ulp"
once and for all!
SBOM
WAK!
yeowch!

CRASH
AAAH !
SBAM
give up already! without your little toys, you're useless!
gentlemen, thank you for your assistance to the umpteenth victory of mad ducktor!
what's with this guy? why's he always speaking in the third person? it's unbearable!
drop it! before we wave our white flag, we have to play our final hand!
SURPRISE !
gulp! what's that?
PN
gyro gearloose's latest invention. it's called the feeblizer and it empties the energy from all those it hits!
you're forgetting that the annihilator can block out any machine

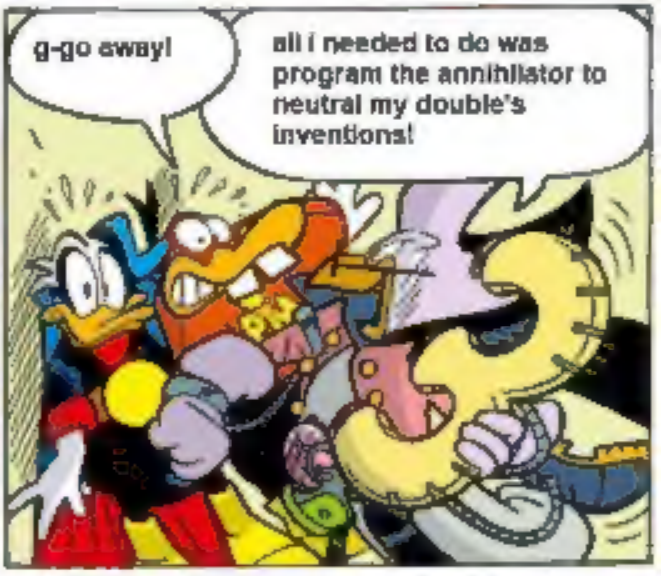
not this one!
this baby runs on alternative energy! it is neither mechanic nor electronic!
uip!
WOOORRRNNNN
suddenly... i feel like i need to rest...
it seems to be working!
SUPER
my legs are giving out from underneath me... i have to sit down...
hehe!
i'm overwhelmed by an enormous fatigue...
i can't even bring myself to ti... to li... lift a... sing..le... mus...cle...
hehehe...

hahahahaha! did you *really* think you could defeat me with a plan that *stupid*? you underestimate my intellect!
OH, NO !
he faked it?

did you *really* think I hadn't planned for whatever maneuvers gyro had up his sleeve?
gulp



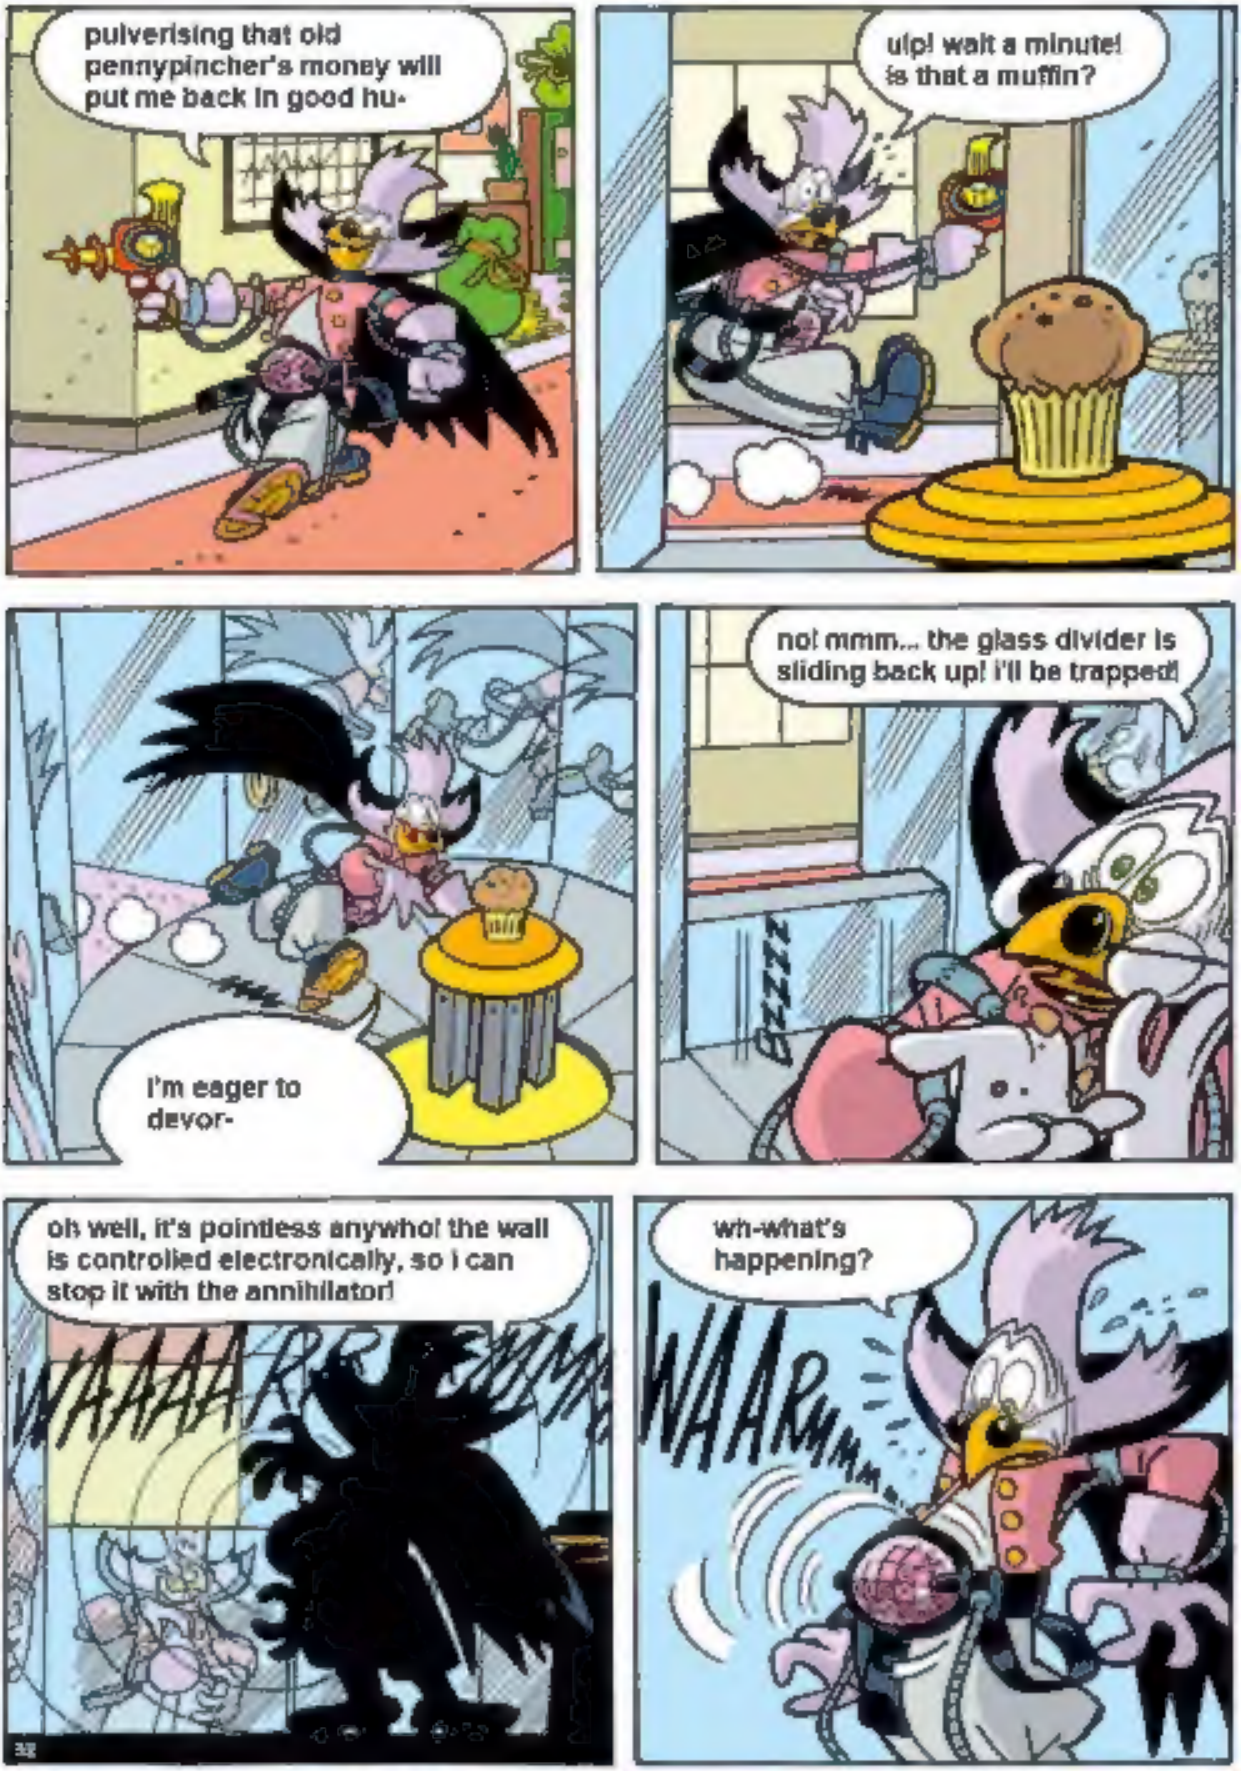
you forget that i'm his double and my brain thinks with the same sort logic as his!
PAF



g-go away!
all i needed to do was program the annihilator to neutral my double's inventions!

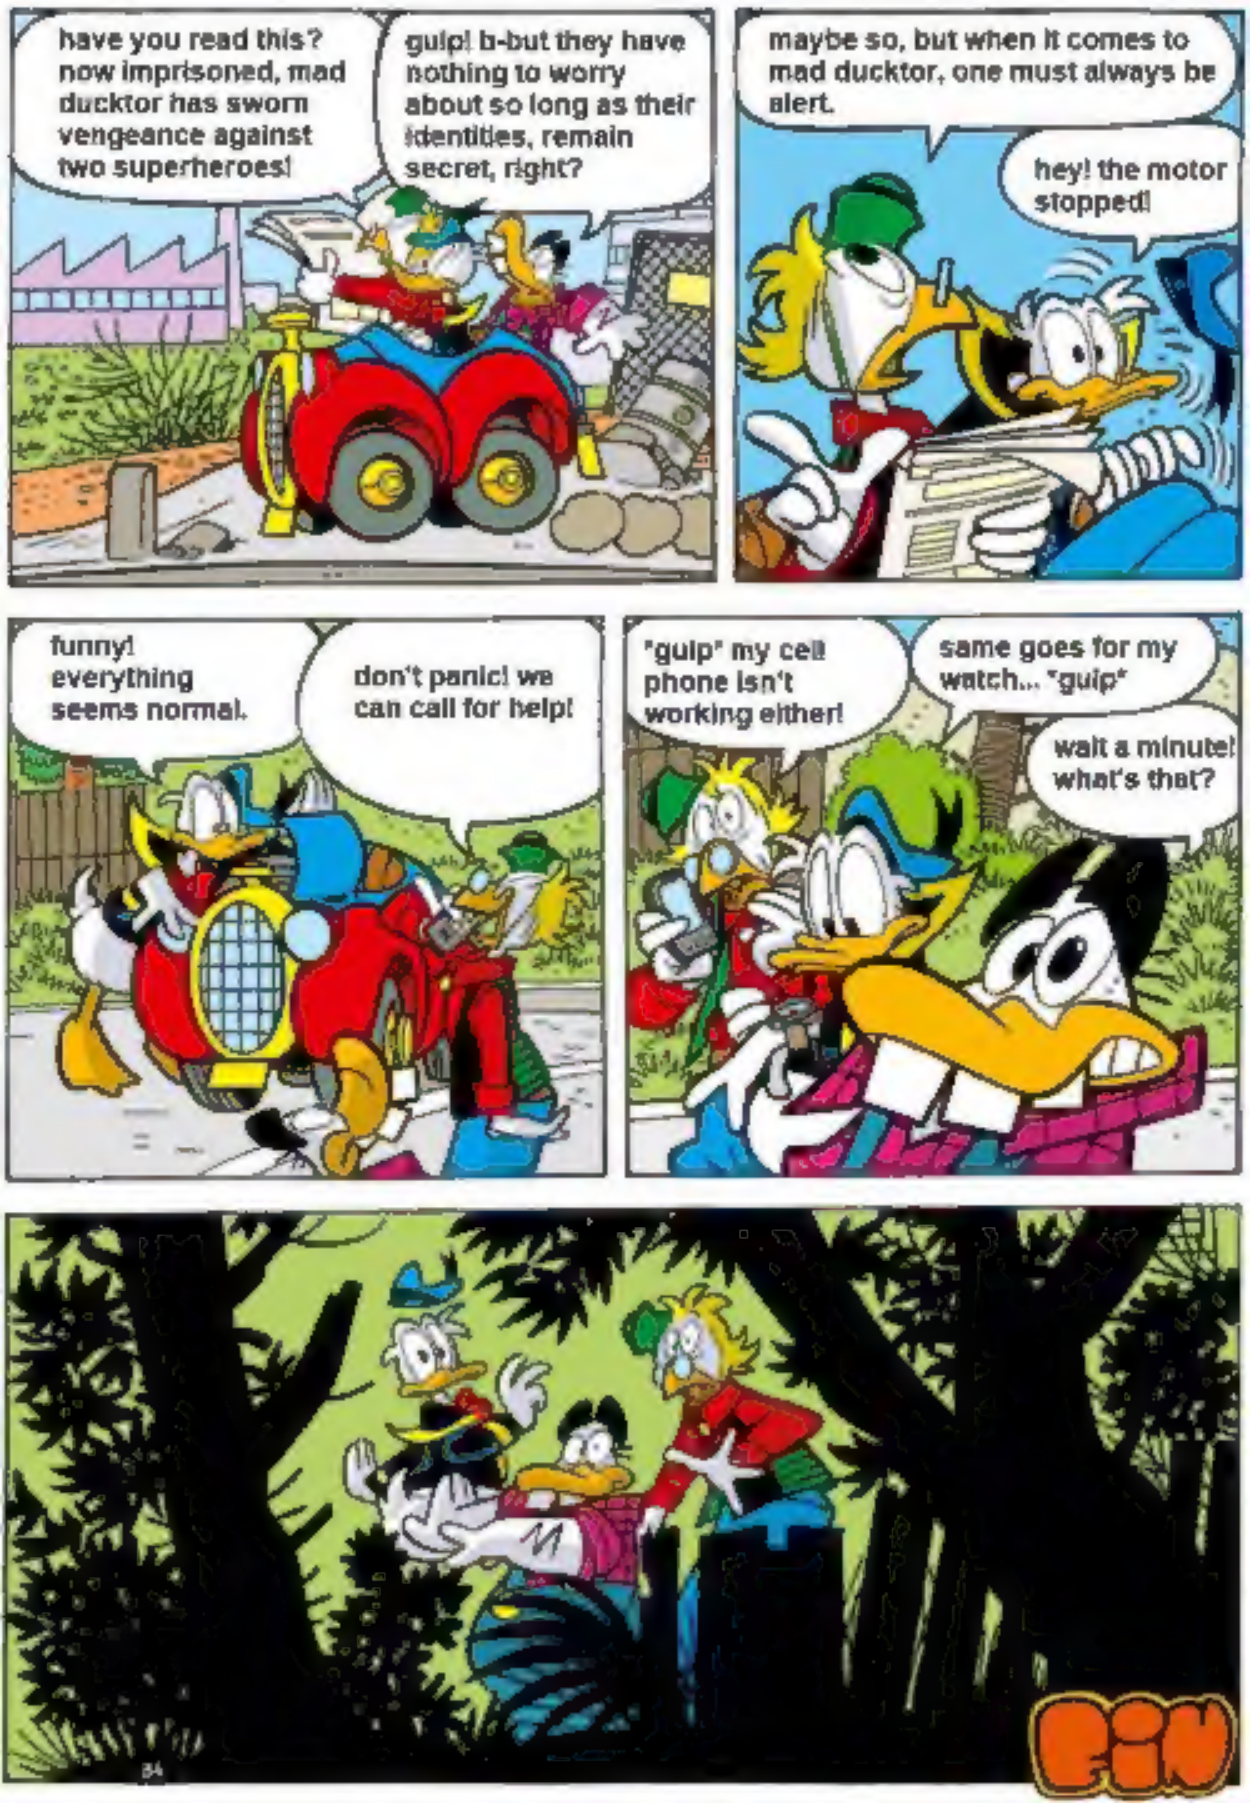
finally, i can keep you two out of my way!
BOOM
AAAH !
ulp!

now behave yourselves! i'm going to finish what i started!



pulverising that old pennypincher's money will put me back in good hu-
yip! wait a minute! is that a muffin?
I'm eager to devor-
no! mmm... the glass divider is sliding back up! i'll be trapped!
GZZZZ
oh well, it's pointless anyway! the wall is controlled electronically, so i can stop it with the annihilator!
WAAAA
wh-what's happening?
WAARMMM

it's simple! instead of stopping the moving wall, the rays reflected on the glass and neutralized itself!
so that's the end of your ray, and with your exoskeleton bust too, it's also the end of your super strength!
since you like to talk in the third person so much, maybe now you could say "mad ducktor played himself!"
s-stop! what are you going to do?
with your iq, you should figure that one out no problem!
PAF
BAM
BOM
POW
the meteorite is back safe and sound
gyro got it right!
GRR !
the only way to level the playing field against mad ducktor was with his one weakness... muffins! hehehe!



have you read this? now imprisoned, mad ducktor has sworn vengeance against two superheroes!
gulp! b-but they have nothing to worry about so long as their identities, remain secret, right?
maybe so, but when it comes to mad ducktor, one must always be alert.
hey! the motor stopped!
funny! everything seems normal.
don't panic! we can call for help!
"gulp" my cell phone isn't working either!
same goes for my watch... "gulp"
wait a minute! what's that?
FIN
